Eligibility For Benefits

Your Physician or Licensed Health Care Practitioner must show that you meet one of the following benefit qualifiers:

You need Substantial Assistance to perform at least two of the six Activities of Daily Living (eating, dressing, toileting, transferring, continence, and bathing).

You require substantial supervision and direction due to Cognitive Impairment.

Optional Rider (Additional premium is required.)

Survivorship Benefit - MIRA34 - When eligible, no further premium payments are required for the insured after the death of the insured's spouse. (Certain conditions apply.)

Why Do You Need Recovery Care Insurance?

You can't predict the future, but you can prepare for it. How will you pay for the unexpected accident or illness that requires a short stay in a nursing or assisted living facility or for Home Health Care, Adult Day Care, or Hospice Care?

According to the American Association for Long Term Care, 42.8% of all patients admitted to nursing care facilities stay for less than a year. Depending on where you live, a one-year stay in a nursing care facility could range from \$36,850 to \$112,400. *

You may work full-time and have major medical insurance. You may have Medicare, maybe even a Medicare supplement policy. Will your current coverage pay for these kinds of care? Does it pay all expenses or only a percentage?

Regardless of the kind of insurance you have, short-term Recovery Care insurance can help protect your financial future. You could use your savings or retirement income to help pay for your recovery, or you can rely on us to help you protect your assets, rather than exposing them to risk.

This is an individual policy that is simple to use and understand. Underwriting is simplified. You choose the facility. It can be tailored to fit your needs and your budget, and you'll get excellent customer service when you call on us for answers to your questions.
